The question of stating this case at the select committee stage of the Other Bill now before them was considered by the select-committee at their meeting held on the 20^th July 1913. It was decided that the select committee cannot consider this amendment as it has no bearing upon the clauses of the Bill and this amendment has not been referred to them by the Legislative Council. They therefore returned the file to Sec III to be sent up to Sec III later on together with other proposals if any, for amending the Municipal Regs

NOTIFICATION

No 113—L C, dated 12th December 1914

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the following Bill further to amend the Mysore Municipal Regulation, 1906, is published for general information with a statement of objects and reasons

By Order,
G SREENIVASA IYER,
Secretary, Mysore Legislative Council

A Bill further to amend the Mysore Municipal Regulation, 1906

Whereas it is expedient further to amend the Mysore Municipal Regulation, 1906, His Highness the Maharaja is pleased to enact as follows —

Amendment of sub division 2) of Section 40

1 In sub division (2) of Section 40 of the Regulation, the words "exceeding rupees two hundred in value shall be inserted between the word 'property' and the words "for a term exceeding seven years'

Addition of a new para to sub section (1) of Section 48

2 In sub section (1) of Section 48 of the Regulation the following shall be inserted between (*j*) and (*k*)

"(*jj*) for the numbering and registration of any motor vehicle bicycle or tricycle liable to taxation under this Regulation

Amendment of the sub heading (3) of Chapter IX of the Regulation

3 In sub heading (3) of Chapter IX of the Regulation after the word drainage the words 'water works' shall be added

Addition of a new section after Section 112

4 The following new section shall be added after Section 112 —

Power of carrying water mains etc

"112A The Water Supply Department of Government or the Municipal Council as the case may be in whom the duty of construction and maintenance of Water Works for supply of water to the Municipality vests shall have the same powers and be subject to the same restrictions for carrying renewing and repairing water mains, pipes and ducts within or without the Municipality as the Municipal Council have and are subject to under the provisions hereinbefore contained, for carrying renewing and repairing drains within the Municipality

Statement of Objects and Reasons

Under Section 40 (2) of the Mysore Municipal Regulation 1906 every sale of immovable property by a Municipal Council requires the previous sanction of Government Before the Municipal Regulation became law the Deputy Commissioners as Presidents of Municipalities used to sell sites in Municipal Towns without reference to Government The proposal to authorize every Municipal Council to sell, without the sanction of Government any immovable property belonging to it had been engaging the attention of Government The subject was first mooted in the Representative Assembly of 1911 To save time and correspondence it is considered desirable to delegate to the Municipal Councils the power now vested in Government in cases of sale or other transfer where the value of the property transferred does not exceed Rs 200

2 The existing practice of registering motor vehicles bicycles and tricycles is reported to be unsatisfactory and a large number of such vehicles bicycles and tricycles are said to be escaping registration As there are no easy means of detection, it is proposed to empower Municipal Councils to frame bye laws so as to number motor vehicles bicycles and tricycles and register the numbers in the Municipal Office The amendment is in conformity with the law in force in the Civil and Military Station

3 Again the Regulation gives power to the Municipal Council to carry drains through private property, if necessary by compensating the owners or occupiers thereof for any damage done to them by such act but does not give a similar power in respect of Water Works

To remedy this defect, Government propose under the present Bill to give the Municipal Council or the Water Works Department, as the case may be who have to construct or maintain the Water Works the same powers in respect to such works as the Municipal Council have under the Regulation in respect of drainage
